A Sonova brand

PHONAK
life is on

With Phonak Naída Marvel we introduce multifunctional hearing aids that deliver a love at first sound experience

When we say love at first sound, we don't just mean the first time your clients try Phonak Naída Marvel, but each and every time they wear them. From the moment you first fit them with their hearing aids, they can expect hearing performance second to none.

This new generation of Phonak technology recognizes and automatically adapts to precisely match more listening situations than ever before¹. With AutoSense OS™ 3.0 and Binaural VoiceStream Technology™, your clients can enjoy better memory recall and reduced listening effort in noise.²

Key highlights:

- Better speech understanding in noise with Roger³
- Reduced listening effort in noise*²
- Better memory recall in noise*²
- World's first super power hearing aid with classification of streamed audio signals¹

Reliable

Naída is the most trusted power hearing aid.⁴ Thanks to expert engineering and design excellence, Naída Marvel can reliably deliver the power needed to manage a severe to profound hearing loss. Since the launch of our first power hearing aid in 1978, we have continuously created hearing solutions that are designed to improve people's lives. Powered by proven Marvel technology, the new Naída M-SP embodies a premium power hearing aid with dedicated key performance technologies that reliably deliver the power needed to manage your clients' hearing loss.

People with severe to profound hearing loss depend on their hearing aids and require a solution that truly delivers. The robust housing enables your clients to continue with their everyday activities knowing that their hearing aids will function reliably and withstand even the toughest listening situations.

What makes Marvel even more marvelous?

Naída Marvel is the world's first super power BTE with hands-free calls that directly streams to iOS, Android or other Bluetooth enabled devices. Your clients can enjoy hands-free phone calls with built-in microphones. In addition, phone notifications can be heard through the hearing aids. Naída also delivers stereo sound quality streaming for music, videos, e-books, podcasts and much more.

Naída features proprietary AirStream™ technology for streaming from any TV and stereo system. Your clients can enjoy TV programs and movies with the TV Connector, a simple plug and play solution. It's just like using wireless headphones – except maybe even better, because Marvel hearing aids can now distinguish between streamed speech and music signals, and automatically adjust for optimized sound quality.

Key highlights:

- Connects to smartphones – iOS and Android
- Connects to a variety of everyday electronics
- Hearing aids used like wireless stereo headphones
- Extra-long streaming time thanks to AirStream technology

Roger™ technology boosts hearing performance in noise and over distance.³ Phonak Naída Marvel features RogerDirect™ which allows Roger technology to stream directly to Marvel hearing aids without having to attach an external receiver.

Key highlights:

- Marvel and Roger, the optimal solution for challenging listening situations
- Designed to improve speech understanding in noise and over distance
- Discreet and appealing solutions

Apps-olutely Marvelous!

Phonak's new digital service platform is dedicated to improving your clients' personal listening needs. Through the **myPhonak app**, your clients can choose to share information with you, you can customize their listening experience in real-time, and with the advanced Remote Control function your clients can adjust their hearing aid settings to their individual needs.

Key highlights:

- Real-time sound adjustment and personalization
- Real-time remote video support

Phone calls can be challenging, especially with background noise. With the **Phonak myCall-to-Text app** your clients can hear the conversation in their Marvel hearing aids, and read in real time what the person on the other end of the phone says. A free version of the myCall-to-Text app is available. Try it out now!

Phonak Trial™

The new Phonak Naída M Trial hearing aids can be quickly set to the required performance level in order to suit your recommendation. This provides you the ability to fit your client with the optimal hearing solution already at the first appointment or to provide a replacement when the client's hearing aid is in for repair.

- Rodrigues, T., & Liebe, S. (2018). AutoSense OS™ 3.0. The new & enhanced automatic operating system. Phonak Insight, retrieved from www.phonakpro.com/evidence, accessed February 19th, 2020.
- Winneke, A., Schulte, M. & Latzel, M. (2019). The effect of spatial noise processing in hearing aids on neural correlates of listening and memory effort: an EEG study. Manuscript in preparation. Expected beginning of 2020.
- Thibodeau, L. (2014). Comparison of speech recognition with adaptive digital and FM wireless technology by listeners who use hearing aids. *American Journal of Audiology*, 23(2), 201-210.
- Taphuntsang, D. (2017) Market Research ID 924. Please contact marketinsight@phonak.com if you are interested in further information. Based on Customer Satisfaction Survey 2017.
- IP68 indicates that the hearing aid is water resistant and dust tight. It survived continuous immersion in 1 meter of water for 60 minutes and 8 hours in a dust chamber as per the IEC60529 standard.
