# Rediscover the wonder of sound in even more listening situations

Phonak Audéo Paradise hearing aids are capable of keeping up with the demands of today's ever changing world. They provide you with a possibility to improve your hearing which can have a direct impact on the way you feel and ultimately, the quality of your life.

Designed with your well-being in mind, Paradise gives you the confidence of knowing that you've got a hearing aid that will help you communicate with friends, family and colleagues. Whether you're chatting on the phone or having a conversation from a safe distance, Paradise delivers an unrivaled hearing experience<sup>1</sup> in even more listening situations.

Rediscover the wonder of sound while staying connected socially and thriving mentally and emotionally. After all, well-hearing is well-being, because when you hear well, you're equipped to embrace and live the life you really want.

# Introducing ActiveVent Receiver

## The world's first intelligent hearing aid receiver

Being able to hear well adds to our sense of connection and engagement which ultimately contributes to our overall well-being. Paradise draws inspiration from nature with the intention of creating a hearing aid that allows you to enjoy the wonders as they should be heard.

In order to facilitate this natural hearing experience, Paradise features the revolutionary new ActiveVent™ Receiver – a hearing aid speaker that combines comfort and hearing performance like never before. ActiveVent attaches to your rechargeable Audéo Paradise hearing aids. It blocks out noise in loud environments to optimize hearing in these challenging situations while providing you with a comfortable and natural listening experience in quiet.<sup>2</sup>

Superior sound quality for streaming media allows you to listen to your favorite music or watch your favorite TV show.<sup>3</sup>

It is designed for challenging listening environments or for moments of focus and is intelligently controlled by AutoSense OS™ 4.0 – automatically adjusting your hearing aids to suit the environment.

<sup>3</sup> Compared to a conventional acoustic coupling in quiet

# Performance and comfort together like never before

## Intelligently balanced speech clarity in noise and listening comfort<sup>2</sup>

ActiveVent Receivers are ideal if you lead an active lifestyle and spend a considerable amount of time in areas such as restaurants, social gatherings, or public places with a lot of external noise. These places can make it even more challenging for you to hear.

With ActiveVent Receivers, as the noise level rises, AutoSense OS 4.0 automatically closes the vent allowing you to benefit from the improved performance of a closed fit. When the noise level drops, the vent opens so you can enjoy the comfort of an open fit. (Available in Premium performance level).

## Superior sound quality for streaming media<sup>3,4</sup>

With ActiveVent, you can now also enjoy superior sound quality for streaming media thanks to the closed vent. The truly special element of these receivers is that if you wish to switch from streaming to talk in a conversation, a simple double tap pauses the streaming content and ActiveVent Receiver opens to enable an effortless transition. (Available in all performance levels).

## Benefits

- ActiveVent Receiver provides on average 10% better speech understanding in noise while providing natural sound in various listening situations<sup>5</sup>
- ActiveVent Receiver helps you to stay connected in both noise and quiet ensuring you can socialize with family and friends and maintain great connections.

<sup>4</sup> Compared to a conventional acoustic coupling in quiet

<sup>5</sup> Latzel, M & Hobi, S (2021) Receiver with mechanical vent provides benefit of open and closed acoustics for better speech understanding in noise and naturalness of own voice perception. Phonak Field Study News in preparation. Expected end 2021.

# life is on

At Phonak, we believe that well-hearing equates to well-being and is essential to living life to the fullest. For more than 70 years, we have remained passionate about creating a world where 'life is on' for everyone. Our innovative hearing solutions are designed for people of all ages and all degrees of hearing loss, to connect socially, thrive mentally and emotionally.
