RightFit™ Customization for Virto I-R: Easy ordering, small size, precision fit

The simple and intuitive RightFit ordering process prioritizes customer satisfaction while improving HCP efficiency.

RightFit benefits include:

Customer Satisfaction Benefits	HCP Benefits
Up to 15% smaller hearing aid ¹	20% estimated reduction in remake rate ¹
Precise fit for all day comfort	Increased clinic efficiency; fewer service appointments
Optimized sound quality based on hearing loss & ear anatomy	Increased customer satisfaction; improved adoption rate

¹ Compared to custom hearing aids without RightFit Customization

Virto I-R with RightFit

What makes a RightFit order?

	Virto I-R with RightFit	Virto I-R without RightFit
Technology level	Clinician choice	Clinician choice
Size	Small as possible or Full Shell (Clinician choice)	Half Shell or Full Shell (Clinician choice)
Power level	AOR (Acoustically optimized receiver)	M, P, SP, UP (Clinician choice)
Vent size	AOV (Acoustically optimized vent)	AOV or ___ mm (Clinician choice)
Wax guard	Clinician choice	Clinician choice

RightFit – Let us choose receiver & venting for best fit.

If RightFit isn't right for this order - select receiver & venting; however, choosing a particular receiver and/or vent will produce a product that is not RightFit.

**Virto I-R will always be built small as possible based on selected parameters. Where applicable, please use RightFit to ensure the device is truly as small as possible.

Note: If you select a receiver or venting (not AOV or AOR), this will not be a RightFit order.
