

# Phonak Virto™ R Infinio.

# Extraordinary sound, fit for comfort with custom precision

Virto R Infinio is meticulously crafted with our proprietary customization approach, combined with next generation Phonak Infinio technology to unlock the full potential of an ITE solution. The rechargeable Virto Infinio is the first custom solution with the full feature set of Phonak SmartSpeech™ Technology, orchestrated by our most advanced AutoSense OS™ 7.0. This is the extraordinary hearing experience that offers sound quality, comfort, connectivity and convenience in a device that looks as good as it feels.

## How does Virto R Infinio unlock a world of new possibilities?

Virto R Infinio is not just a product; it's an opportunity to convert new and reluctant users into confident wearers.

### RightFit™ Customization

RightFit is a multi-faceted approach to customization that prioritizes the importance of achieving an optimal first fit. RightFit assures a precise fit that is as-small-as-possible for each individual ear, for a discreet look that delivers comfort and style without compromising on sound quality.

**Biometric Calibration** captures 1600 data points to consider the unique anatomical and acoustic properties of each ear

**Acoustically Optimized Vent (AOV)** balances the fine line between optimal sound amplification and wearing comfort in our customized hearing devices

AOV together with Biometric Calibration, preserves **high frequency amplification**, for optimal sound quality

These are a few examples of how years of data have helped us shape a more holistic view of how these different parameters work together to optimize the hearing performance for every individual.

**APD 3.0 delivers 93% consumer satisfaction from the very first fit.<sup>1</sup>**

# Open the door to more patients

## Simple, intuitive use

- Our new snap and charge system makes recharging simple and secure
- Simply release the hearing aid into the charger and it will magnetically attach to the charging port. The ports are interchangeable so no need to worry about which hearing aid goes where
- This system assures that Virto I-R is powered up for a full day of use

## Market-leading, universal connectivity

- Equipped with the revolutionary ERA chip for next-level sound processing that automatically switches between acoustic and streaming programs
- One step pairing to myPhonak and Bluetooth® devices\*
- Pairs with up to 8 Bluetooth® devices, with the flexibility to have 2 simultaneously connected

## Maximizing hearing potential with Roger

Roger is an intelligent wireless technology that transmits speech directly to Infinio hearing aids via RogerDirect, achieving up to a 65% improvement in word recognition over the use of hearing aids alone\*\*2

## myPhonak

A highly-rated hearing aid app, giving your patients the ability to make personalized, real-time adjustments that suit their unique listening needs

\* Smartphones and tablets

\*\* The wireless system consists of a Roger microphone and a Roger receiver associated with a compatible hearing device.

# life is on

Since 1947, Phonak is dedicated to preserving life quality by opening new acoustic worlds. Already back then, in the days of our foundation, our company was driven by a formative conviction: We believe that well-hearing equates to well-being and thus is essential for living life to the fullest. In fact, the sense of hearing is directly linked to social, emotional, cognitive and physical well-being. Today as in future, we thrive to offer the broadest portfolio of innovative hearing solutions. And, together with our hearing care professionals, we keep on focusing on what matters most: improving speech understanding, changing people's lives and having a positive effect on society as a whole.
