¹ Available in specific countries only

² Actual charging time depends on the remaining battery life, but it will not exceed 3 hours.

³ Available in two different surface roughnesses: standard or extra retention [ERS]

⁴ IP68 indicates that the hearing aid is water and dust resistant. It survived continuous immersion in 1 meter of fresh water for 60 minutes and 8 hours in a dust chamber as per the IEC60529 standard.

⁵ Virto I-R and Virto I-10 NW O only

Our innovative approach to customization - RightFit™ - enables the building of smaller styles of Virto I-R hearing aids, depending on the ear anatomy, receiver & vent size.

Phonak Virto I-R charging solution

Phonak Charger Virto I

Phonak Virto I-R has all the Infinio features you love as well as the benefits of rechargeability. With our proprietary snap and charge system, charging becomes simple and intuitive. Release the hearing aid into the charger and it will magnetically attach to the charging point. Snap and charge assures that Virto R is powered up for a full day of usage, and clients can enjoy a full day of hearing including streaming.

life is on

Since 1947, Phonak is dedicated to preserving life quality by opening new acoustic worlds. Already back then, in the days of our foundation, our company was driven by a formative conviction: We believe that well-hearing equates to well-being and thus is essential for living life to the fullest. In fact, the sense of hearing is directly linked to social, emotional, cognitive and physical well-being. Today as in future, we thrive to offer the broadest portfolio of innovative hearing solutions. And, together with our hearing care professionals, we keep on focusing on what matters most: improving speech understanding, changing people's lives and having a positive effect on society as a whole.
