SELF ASSESSMENT OF COMMUNICATION-ADOLESCENT (SAC-A)*
(Judy Elkayam, Au.D. and Kris English, Ph.D.)

The purpose of this questionnaire is to identify problems you may be having because of your hearing loss. We will talk about your answers. That conversation may help us understand the effect the hearing loss is having on you. It may also give us ideas to help you manage those problems. The information you give will not affect your grades in school. Please select the appropriate number to answer the following questions. Select only one answer for each question. If you usually use hearing aids, answer each question in a way that describes your experiences with the hearing aids on. If you do NOT usually use hearing aids, answer each question in a way that describes your experiences without the hearing aids.

Hearing and Understanding at Different Times

1. Is it hard for you to hear or understand when talking with only one other person?
   1=almost never  2=occasionally  3=about half the time  4=frequently  5=almost always

2. Is it hard for you to hear or understand when talking with a group of people?
   1=almost never  2=occasionally  3=about half the time  4=frequently  5=almost always
