	Concha Lock	

Step 5: Preferences

Indicate the hearing instrument to be fitted with the earmould.

Model: _____

Colour: _____

Special requests:

Call-back requested

Additional information

Acoustically Optimised Vent (AOV)

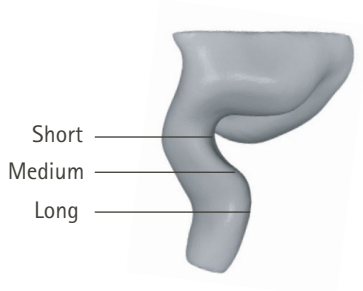

We recommend to select AOV. We will set the correct vent diameter and style consider audiogram / shell geometry / feedback canceler and required low frequency gain. The client's audiogram is mandatory for the calculation of the AOV.

Canal Length

Canal length short – at 1st bend

Canal length medium – between 1st and 2nd bend

Canal length long – at 2nd bend

SlimTube Cut (STC4)

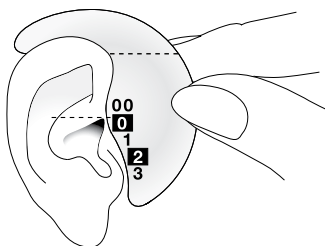

For small ears with narrow canals, we offer a Slimtube Cut.

SlimTube Cut (STC4) = SlimTube with removed connector

The SlimTube Cut is compatible to Marvel hearing aids or newer. It is not backward compatible to Belong or earlier generation hearing aids.

Tube Length

Measure the tube length to select the correct SlimTube. Measure both ears for binaural fitting.

Plastic Tube Lock (TRS)

For silicone ear moulds we offer a plastic tube lock. The plastic tube lock is for an adhesive free sound tube connection.

Special Colours

We offer opaque colours upon request. Please provide a note in the special comment field.

Preferences

Let us know if you have specific requests. Select if BTE should be delivered together with the earmould.
