

Charging Suitcase from Phonak

Safe storage, transport and charging of Phonak Public FM systems

Making public places accessible

The new Charging Suitcase from Phonak is the ideal accessory to store, transport and charge Phonak wireless FM products for public places. The Charging Suitcase can hold 10 MyLink universal FM receivers, 10 headsets and up to two portable Phonak FM transmitters of any type. The built-in charging facility will allow you to conveniently charge all equipment without the need of additional chargers.

Robust and practical

The suitcase is made of aluminum, and soft inlays protect all equipment from shock damage. Only one cable needs to be plugged into the mains to simultaneously charge all equipment. A practical user guide with helpful pictures comes with the suitcase and explains how to handle both suitcase and equipment.

Our products have been very well received by many well-known and respected customers. BMW, Zoo Zurich, SAP, Guinness, The New York Botanical Garden, The Decorative Arts Museum in Paris, to name just a few. Why don't you join these customers and offer your visitors full access?

Charging Suitcase from Phonak: ideal for public places like theaters, movie theaters, houses of worship, town halls, universities, sports venues, conference centers, zoos, museums and guided tours.

Wherever you want to make sure that hearing impaired people can hear and enjoy what you have to offer, Phonak wireless FM products make communication and understanding possible. Phonak transmitters and MyLink receivers are the right solution. The MyLink receivers can be used by people with and without hearing instruments. The convenient Charging Suitcase will help you protect, store and charge the equipment.
