

Naída S IX

Believe in the power
to hear more

PHONAK

life is on

Power hearing delight

Naída S IX is the new power solution.

Naída S IX is a fully featured hearing aid for people with significant hearing loss. To add to your quality of life by choosing audibility, performance, durability and design, read on to find out more.

More hearing

SoundRecover makes high pitched sounds, which are normally difficult to hear, easier to hear.

Annoying whistling is reduced thanks to powerful WhistleBlock technology.

More freedom no matter where or what

Notable dependability

Naída S IX combines performance with looks and water resistance for dependability.

More connectivity

With Phonak wireless accessories, multimedia entertainment, communication and work are much more fun. TV, telephone, MP3 player, GPS and computers can be enjoyed effortlessly.

Plus, only a Naída S IX has DuoPhone, which lets you hear a voice on the phone in both ears – as soon as you hold it to your ear. Speech clarity is impressive and background noise is reduced.

Pairing the Phonak TVLink with your Naída S IX brings TV sound directly to your ears, so you and your family can adjust the volume separately and enjoy watching TV together.

Increase hearing comfort outdoors.	WindBlock
Reduce annoying whistling.	WhistleBlock

Improved hearing in noise

Phonak was first to introduce zoom technology to enhance hearing in challenging situations. Naída S IX makes zooming even more effective thanks to major advancements in zoom technology.

Naída S IX technology allows three levels of zooming:

UltraZoom Premium

In noisy situations with several people talking around you, UltraZoom automatically zooms in on the voices coming from the front. Noise from the side and back is reduced.

StereoZoom

In an extremely noisy situation where you want to communicate with just one person, StereoZoom can zoom in even closer and reduce noise even further.

auto ZoomControl

When you cannot easily face the speaker, e.g. in a car, auto ZoomControl can zoom to either side and to the back for improved hearing.

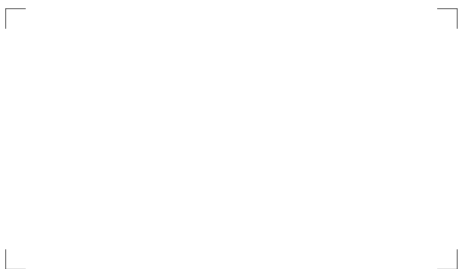

Life is on

We are sensitive to the needs of everyone who depends on our knowledge, ideas and care. And by creatively challenging the limits of technology, we develop innovations that help people hear, understand and experience more of life's rich soundscapes.

Interact freely. Communicate with confidence. Live without limit. Life is on.
