

Audéo ZIP

In the Ear. In an Instant.
Incredibly Discreet.

In the Ear

The hypoallergenic silicone ear pieces come in different sizes and shapes to ensure optimal retention and wearing comfort. The special design leaves the ear sufficiently open to prevent sweating and ensures comfortable, natural sound.

In an Instant

A key advantage of Audéo ZIP is that it fits your ear instantly. This means that you can experience the benefits of better hearing immediately.

Incredibly Discreet

Audéo ZIP is so tiny that it is hardly noticeable. The entire hearing aid hides almost invisibly inside your ear canal.

Life is on

We are sensitive to the needs of everyone who depends on our knowledge, ideas and care. And by challenging the limits of technology creatively, we develop innovations that help people hear, understand and experience more of life's rich soundscapes.

Interact freely. Communicate with confidence. Live without limit. Life is on.

PHONAK

life is on

A Phonak understands your world

Good hearing is key to understanding your world. This is especially true within the family, at work, with friends and for many social activities. When you experience hearing loss, many facets of life can become increasingly difficult. Conversations with loved ones, meetings, telephone calls and listening to the TV may become a challenge. We at Phonak understand how reassuring it is to know you can hear sounds like the doorbell, a baby crying, or the buzzing of an oven timer. And we know that many subtle sounds contribute to the quality of life – sounds like birds singing, the laughter of children, music and even the gentle drumming of rain on a roof or the rustle of leaves in a breeze.

Audéo ZIP is new to the world

Audéo ZIP is the evolution of small. It was designed to sit deeply inside your ear, where it adapts itself to the contours of your ear canal, making it comfortable to wear and almost invisible. Despite its tiny size, this hearing aid is packed with state-of-the-art technology. Audéo ZIP is available at three price levels to meet your needs, lifestyle and budget.

The smallest Phonak: Audéo ZIP

Benefit	Feature	Audéo ZIP IX	Audéo ZIP V	Audéo ZIP III
Understand speech much better when others speak. Enjoy a fuller spectrum of audible sound	SoundRecover			
Enjoy continuous and automatic adaptation to all sound environments	SoundFlow Automatic	Premium	Advanced	Standard
Eliminate annoying whistling	WhistleBlock			
Reduce surrounding noise without affecting the loudness of speech. Experience comfortable hearing and less fatigue	NoiseBlock			
Enjoy outdoor hearing comfort	WindBlock			
Experience normal sound in environments that echo	EchoBlock			

Audéo SMART is small and hides behind the ear

If you prefer to wear a stylish device behind the ear, Audéo SMART delivers hearing performance without compromise. It is the smallest hearing aid in the world to offer full wireless functionality. At the push of a button, you can connect Audéo SMART to telephones, TV, MP3 music players and many other audio transmitters.

Restore all the sounds of life

The exclusive Phonak SoundRecover technology brings back all the subtle sounds that complete life's rich soundscapes – from the sweet whispers of a loved one to the pleasant sound of birds singing. Most importantly, SoundRecover allows you to follow conversations clearly and without interruption. There's no other system that can restore even the quietest, most subtle sounds in speech. Thanks to SoundRecover you won't miss a thing.
