

More Hearing

Get back all the sounds of life

Exclusive Phonak SoundRecover technology brings back all the subtle sounds that complete life's rich soundscapes – from the sweet whispers of a loved one to the pleasant sound of birds singing. Most importantly, SoundRecover allows you to follow conversations clearly and steadily. No other system can bring you back even the most quiet, subtle speech sounds – thanks to SoundRecover you won't miss a thing.

Understand better – even in challenging situations

Its intelligent shape enhances the ability of Audéo SMART to automatically zoom in on speech and reduce background noise. This way, even conversations in noisy restaurants or windy streets are easy to understand.

The impressive abilities of Audéo SMART are enabled by the industry's fastest, highest-capacity audio-processing microchip. With this unrivalled technology, Audéo SMART ensures clarity and comfort, no matter where your busy life takes you.

- Hear even the most subtle sounds
- Enjoy conversations with family and friends
- Understand better in background noise

Life is on

We are sensitive to the needs of everyone who depends on our knowledge, ideas and care. And by creatively challenging the limits of technology, we develop innovations that help people hear, understand and experience more of life's rich soundscapes.

Interact freely. Communicate with confidence. Live without limit. Life is on.

Really small!

If "invisible" didn't sound implausible, that could have been the name of our new hearing aid. It's ultra-small, intelligently designed and super durable. Introducing Audéo SMART, the world's smallest wireless hearing aid.

More Hearing – regain the full spectrum of sounds

Audéo SMART expands your hearing so you can enjoy the full spectrum of sounds – no matter what your degree of hearing loss. You also profit from state-of-the-art technology that improves speech clarity and reduces background noise for best possible understanding.

Flexible Control – choose what you want to hear

Audéo SMART combines outstanding performance and flexible control. It not only masters challenging hearing situations – it can be controlled with a button on the device or by remote control. Audéo SMART is so versatile, it even lets you choose in which direction to focus hearing.

Unlimited Connectivity – connect to the wireless world

Audéo SMART is more than a hearing aid. Connect it to electronic devices such as your phone, TV or computer and enjoy all the advantages of modern wireless communication.

Flexible Control

Directly at the ear

Audéo SMART can be controlled directly at your ear – you merely press the button on the device. Your hearing care professional can configure the button for a variety of control functions to suit your individual needs and wishes.

Via remote control

In addition to the convenient control via the button, Audéo SMART may be remote controlled with the myPilot command center.

Flexibility and convenience: myPilot gives you control over volume, listening programs and allows focused listening in any direction.

360° focus

Via the button or myPilot you can choose in which direction you want to focus your hearing. This is especially valuable in situations where you cannot face the speaker, such as when listening to a passenger in a car.

- Control on the device and with remote control
- Hearing focus in any direction
- Convenient and hassle-free

Unlimited Connectivity

Leading an active life means interfacing with telephones, televisions, MP3 players, computers or other audio sources. With Audéo SMART you can fully enjoy all the advantages of modern communication and entertainment systems.

Click'nTalk – the intuitive mobile phone link

Enjoy mobile phone conversations without thinking about the technology. Compact Click'nTalk fits into the base of a variety of Sony Ericsson mobile phones and provides unmatched sound quality via both hearing aids simultaneously.

iCom – the communication interface

iCom connects wirelessly to many communication systems. Your hearing aid will function as a wireless headset allowing you to benefit from hands-free functionality in true stereo quality.

DuoPhone – hear phone calls in both ears

Exclusive Phonak wireless technology lets you hear calls from any type of phone in both ears – even without an accessory.

- Easy access to the wireless world
- Better hearing on the phone
- Hands-free convenience
